Vice Chancellor,

Government College University Faisalabad

Subject: Approval for E-commerce Trainings and Seminars at university Level

Respected Sir,

Mr. Hussain Zaidi is a former GCUF student from 2014-18 and he is one of the early incubatee of BIC. During his graduation at GCUF.

Mr. Hussain and his classmates took BIC to new heights and enlightened the name of GCUF as well as the esteemed faculty who taught them in all aspects. From past few years, Mr. Hussain Zaidi has been working as an Amazon seller in different markets such as USA, Canada, UK, UAE, Turkey and Europe.

Having a humble background but the urge to keep moving forward, Mr. Hussain has been able to train hundreds of students in the E-Commerce field and his students are earning hundreds of Dollars every month while living in Pakistan.

We want to utilize his expertise to training more students of GCUF so students can become effective part of society and business.

Permission may please granted to start E-Commerce training and seminar at University level as there will be ^{no} financial liability on university. However if these training help to generate revenue then it will be donated to university for further community services.

Moh

Dr Mohsin Bashir

Manager Business Incubation centre

Government College University Faisalabad

Director ORIC please

The idea is feasible and beneficial for University students as well as teachers. Approval may kindly be granted to start activities.
